OBJECTIVE

Entry-level Computer Science and Engineering graduate seeking opportunities to apply programming, database, and problem-solving skills in a growth-oriented organization. Strong foundation in Core Java, Advanced Java, SQL, and web technologies with hands-on project experience.

Education

Sree Rama Engineering College — **Nov 2021 – Apr 2025**
Tirupati, Andhra Pradesh
Bachelor of Technology in Computer Science and Engineering — CGPA:76.9

Dr Jyothirmayi memorial Junior College, Adoni — **Jun 2019 – Apr 2021**
Adoni, Andhra Pradesh
Intermediate in MPC— Marks : 763/1000

Bhashyam EM High School — **Jun 2018 – Apr 2019**
Adoni, Andhra Pradesh
10th Grade — *CGPA : 9.7/10*

Languages : English, Telugu

Experience

Tap Academy — **July 2025 – Dec 2025**
Full Stack Web Development - Intern — *Offline*

- Currently undergoing an internship at Tap Academy, gaining hands-on experience in coding, Core Java, Advanced Java, HTML, CSS.
- Working on real-world projects, solving coding challenges, and enhancing problem-solving skills.
- Developing a strong foundation in logical thinking and coding efficiency through structured learning and practical application.

Projects

Food Delivery Web Application — **Sep 2025 – Dec 2025**

Tech Stack : Java, JSP, Servlets, JDBC, MySQL, HTML, CSS, JavaScript, Apache Tomcat.

- Developed a full-stack Food Delivery Web Application similar to Swiggy/Zomato that allows users to browse restaurants, view menus, add items to cart, place orders, and track order status.
- The system supports multiple roles including Customer, Restaurant Admin, Delivery Agent, and Super Admin with role-based access control.
- Implemented secure user authentication (signup & login), dynamic menu management, cart and checkout functionality, order confirmation, and order management using Java Servlets and JSP. Used JDBC for database connectivity and MySQL for persistent storage.

EEG-Based Human Emotions Recognition using Deep Learning — **Jan 2025 – Apr 2025**

- Built a deep learning-based system to identify human emotions using EEG datasets.
- Developed a web application with Django to allow users to log in and analyze emotions.
- Applied Python-based data processing and model evaluation techniques.

Skills

- **Programming Languages :** Core Java, Advanced Java, JavaScript.
- **Web Technologies :** HTML, CSS, React.
- **Frameworks :** Hibernate, Spring Core, Spring MVC, Spring Boot.
- **Databases :** MySQL, MongoDB.
- **Developer Tools :** Eclipse, VS Code, MS Word, IntelliJ, Google Antigravity.

Certifications

- **Full Stack Web Development :** Tap Academy. — **Dec 2025**
- **Java Full Stack – Intern :** Prowork Foundation. — **Jul y2024**
- **AI-ML Virtual Internship :** AWS Academy. — **Mar 2025**
- **End-to-End Data Science Product Development using Python** – NIT Warangal. — **Jan 2023**
